3. USAGE GUIDE

Preparation

Xylazel Wood Filler is ready to use.

Ensure the area to be repaired is clean, dry and free from dust.

Select the colour which is closest to the colour of the wood, adapting your choice if dyeing the wood.

Always test products on spare surface or inconspicuous area for colour, compatibility and end results.

Application

Apply using a scraper or suitable filling knife.

Once dried, it may be sanded, screwed, painted or varnished.

4. OTHER INFORMATION

Do not store when room temperature is below 5°C or over 30°C.

Do not empty into drains or watercourses.

Apply in accordance with the coverage guidelines otherwise product performance will be reduced.

5. INFORMATION AND SERVICE

Whilst these specifications are based on expert technical knowledge and practical experience, we cannot assure responsibility for any work as the ultimate result depends on factors beyond our direct control.

Our Technical Services Department will be pleased to offer specific guidance or provide any further information you may require.
